SE 484 Special Education Internship	6		
TOTAL	**20**		

The Special Education Program prepares individuals to work with young children with special and individual needs in K-12 school and early childhood settings. This program prepares generalists not specialists in any one area. Students interested in this minor will need to integrate the special education courses into their program and complete a 6 credit internship. Courses should be taken in order listed. Minor does not lead to K-12 Special Education Certification.

Students desiring additional information should contact a member of the Special Ed faculty within the Education Division.
